To,

Sub: National Science Day & Anniversary Day Celebrations - 2018

Dear Sir/Madam,

As you are aware that, this centre is engaged in popularizing science among the students in particular and public in general through its interactive exhibits and by organizing various educational programmes through-out the year.

Indian Nobel laureate Sir C.V. Raman declared his invention of the 'Raman effect' on 28th February 1928. To commemorate this day, National science day is celebrated every year on 28th February.

This year various programmes are organized at Raman Science Centre on the occasion of National Science day Celebrations. The programme list along with the proforma for participation is enclosed here with. I hope that you will take it as an opportunity for your students to participate and know more about science.

During this event, **Mega Drawing contest** is also being organised on Saturday, 03.03.2018. Students of Class I to X can participate in it.

I request you to kindly bring this to the notice of students and register their names for respective contests / programme in attached proforma and send it to this office on or before **22.02.2018**.

Thanking you in anticipation for your whole hearted co-operation in building scientific awareness.

Yours faithfully,

(V. D. Chaudhari)
Education Officer
