RAMAN SCIENCE CENTRE, NAGPUR

(National Council of Science Museums)

Ministry of Culture, Govt of India.

Opp. Gandhisagar

Nagpur-440018 India

Are you Curious? Are you investigative? Do great ideas while taking bath? If your answer any of these queries in the positive. The **Raman Science Centre** is just right place for you. Here we provide you never before experience to know about everything under the sun, including the sun itself! Student or housewife, teacher or executive whoever you be, we have something for everyone.

Visiting the Centre, you first enter to the amazing Science Park which was a garbage dump for years as locals would tell you. The state of land was true even few years that it has changed to the picturesque landscape, in which you find it today, is some achievement indeed. The 8 acre sprawling park is aptly called Science Park as you would find scores of exhibits that explain different principles of science in a most refreshingly new “hands on” method. Here you operate and theorize yourself only to check for the correctness rather than being taught or told anything. In this way the scientist within you gets a fair chance and science learning becomes a pleasurable entertainment. What a relief from the classroom format, you sure would say.

As you enter the centre proper, we guarantee to bewilder you. Different galleries in the three floors take you through different aspects of science as varied as from history of inventions to modern Information and communication technology, fun science and much more.

As you enter the planetarium, the prime attraction of Nagpur, you are instantly transported to the myriad realm of stars and galaxies and undertake the never before-thought-of journeys along with the celestial objects in the sky., You can also enjoy 3-D Science Films and prehistoric Animal Park- Light & sound show.

Come and free the scientist within you and let your ideas go crazy. visit the centre unlimited times, get preferential entry to our wide ranging activities, enrol for various contest, get free access to the library, and live Lectures by experts through Satellite Interactive terminal(SIT).

Whatever you do or wherever you go, you would enjoy these benefits for the next twelve months once you become a proud members of this Science Centre.
