

MEMBERSHIP PROGRAMME

BECOME A MEMBER & JOIN THE FAMILY OF SCIENCE CENTRE

Are you curious? Are you investigative? Do you get great ideas while taking bath? If you answer any of the above queries in the positive, then Raman Science Centre is just the right place for you. Here we provide you with a never before experience to know about everything under the sun, including the sun itself! ! Student or housewife, teacher or executive whoever you be, we have something for everyone.

Visiting the Centre, you first enter to the amazing Science Park which – as locals would tell you – even a few years that state to the picturesque landscape, in which you find it today, is some achievement indeed. The 8 acre sprawling park is aptly called Science Park as you would find scores of exhibits that explain different principles of science in a most refreshingly new “Hands on” method. Here you operate and theorize yourself only to check for the correctness rather than being taught or told anything. In this way the scientist within you gets a fair chance and science learning becomes a pleasurable entertainment. What a relief from the classroom format, you sure would say.

As you enter the Centre proper, we guarantee to bewilder you. Different galleries in the three floors take you through different aspects of science as varied as from history of Invention to modern Information & Communication Technology, Fun science and much more.

As you enter the Planetarium, the prime attraction of Nagpur, you are instantly transported to the myriad realm of stars and galaxies and undertake the never-thought-of journeys along with the celestial objects in the sky. You can also enjoy 3-D Science Films & Prehistoric Animal park – light & sound show.

Come and feel the scientist within you and let your ideas go crazy. Visit the Centre unlimited times, get preferential entry to our wide-ranging activities, enroll for various contests, get free access to the Library, and live Lectures by experts through Satellite Interactive Terminal (SIT).

Whatever you do or wherever you go, you would enjoy these benefits for the next twelve months once you become a proud member of this Science Centre.
